

I PROTECT WHAT MATTERS MOST.

Associate in Science Degree in Fire Science Technology

Ensuring safety through leadership, investigation, and fire prevention

FSW's Associate in Science (A.S.) Degree in Fire Science Technology offers you opportunities to expand your career in the fire service.

You'll gain advanced knowledge in firefighting techniques, fire prevention, leadership, inspection, fire dynamics, and more. Don't stop there—after graduating, you can pursue FSW's Bachelor of Applied Science in Public Safety Administration to unlock even more career opportunities.

Program Curriculum

FSW's A.S. in Fire Science Technology courses are designed to fit into the work schedules of employed fire service personnel (most courses are fully online) and will provide you with the fundamental principles of:

- Organizational management
- Fire behavior
- Emergency tactics
- Fire suppression
- Building construction
- Fire service course delivery
- Provide preparation for state certifications as Fire Officer I and Fire Safety Inspector I
